

SEALFAST
THE SIMPLE SOLUTION

PIPE FITTINGS & VALVES

COMBINATION NIPPLES

CRIMPTEK - MALE NPT-
STEEL & SS 316

FEATURES & APPLICATIONS:

• General Uses:

Working pressures may vary with type and clamping system used to install couplings.

Combination Nipples are recommended for low pressure discharge and suction service for compatible liquids. NOT for compressible products such as Air, Nitrogen and Steam.

*All blank end & grooved combination nipples are made using Schedule 40 pipe.

Seal Fast Crimp Combination Nipples are to be used with Seal Fast Ferrules and Crimp Sleeves. They are designed with an Interlock System which allows the Ferrule to be permanently attached to the coupling.

WORKING PRESSURE 200 PSI
